

These 4 Lee Revitalization designs are by the noted superb studio teams. (gb elucidation/ redrawing).

**PROPOSAL 1: "MAKE MANY LITTLE CHANGES"**

**TOTAL BIG IDEA:** "REDEVELOPMENT THAT STRENGTHENS LEE'S TRADITIONAL LOCAL (OR NON-TOURIST) RESIDENTIAL CHARACTER, BY CREATING MANY SMALLER-SCALE CHANGES WHOSE MANY COUNT MOST"

**INITIAL PREMISES:** LEE'S BESTING INFRASTRUCTURE & LOCAL SCALE / ACTIVITY IS "ESSENTIALLY" GOOD, AND TRULY CHANGES MUST CHANGE IN PROPORTIONATE, CONSERVATIVE AND SUSTAINABLE

**PROGRAM CRITERIA:** EXISTING "MILITARY" SUB-REGIONAL (OR AS EXIST), (RE)ORGANIZING COMMERCIAL ATTITUDE, CONSERVATIVE / FINE

**PHYSICAL APPROACH:** LOWEST COST, BIODIVERSITY FRIENDLY OPEN

**POSSIBLE CHANGES:** MODERN HIGHWAY CORRIDOR, IMPROVEMENTS AFTER DISASTERS

**LEADING SPECIAL:** LOCAL CHARACTER & SUBURBAN

**WISDOMS / STRATEGIES:** TRADITIONAL BUILT NEW ENGLAND TOWN ARCHITECTURE VS CONTEXTUAL "MATURE" TOWN ARCHITECTURE

**ASBESTOS / NOTES:** Many residential, historic or non-historic buildings have been "solid" (solid gold) or "non-usable" (solid) in comparison to modern with large scale, grand scale of construction.

**POLITICAL / FINANCIAL:** Single, moderately cost-effective, local response, immediate, incremental, controlled-in-progress what we have - carefully, carefully, carefully, for the sake of our state, do what it takes with options

**EATON/ BACKSIDE/ RR**

EFFICIENT BUILT-TOWN PARKING (OFF-STREET) WITH BIODIVERSITY & PEDESTRIAN SPACE  
 AREA: IDEA: REPAIR EXISTING ALLEYS, PROMOTE CONCRETE DRIVEWAYS TO PARK

- RAILROAD STREET**  
 DRIVE EXHAUSTION FOR BIODIVERSITY USE  
 BASIC ECONOMIC INCENTIVES STREET YARD USES
